No. F(19)/Gen./B.Sc./2007/

Dated:-

"LATERAL ENTRY IN B.E, IInd YEAR : RULES"

The lateral entry to B.E. II year can be given if the science graduate simultaneously does some courses, with no extra semester, to make up the loss of B.E. I year studies, especially the first B.E. Engineering Subjects, for example, Machine Drawing, Practical Geometry and the Workshop-Practice. It should be left to the students & the departments to overcome these deficiencies.
